

Keiser 2022 Real World Testing (RWT) Results

Date Completed: September 14, 2022

Total RWT Client Responses: 3

Care Coordination § 170.315(b)(1) Transitions of care Metric #1: Report the numbers of C-CDAs sent over a three (3) month period. Record a numeric total below.

3 responses

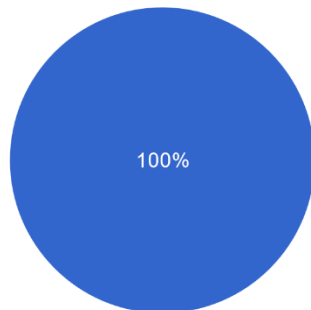

Time frame 5/1/2022-8/1/2022 1341 CCDAs generated - Note report tracks CCDA by unique patient count

Date range (5/1/2022 - 8/1/2022) Total number of CCDs is 0

Date range (5/1/22-8/1/22) 1 CCDAs sent over this time frame.

Care Coordination § 170.315(b)(1) Transitions of care Metric #2: Confirm the successful creation of two unique CCDAs by each practice without failure.

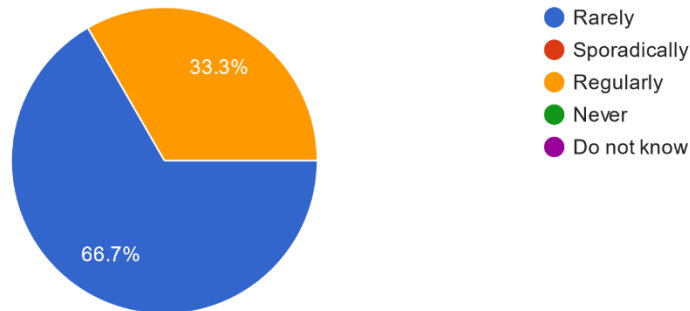

3 responses

- Successful generation of 2 CCDAs
- Successful generation of 1 CCDAs
- Unable to generate any CCDAs in the customer's production environment

Care Coordination § 170.315(b)(2) Clinical information reconciliation and incorporation: How often you are using the C-CDA incorporate and update fe...nd will be given the survey answer choices below:

3 responses

Care Coordination § 170.315(b)(6) Data export: How often does the practice perform the batch patient data export during an average month and will be given the survey answer choices below:

3 responses

Clinical Quality Measures § 170.315(c)(1)—record and export: How many CQMs have you (or your practice) successfully reported to CMS for MIPS or other quality measures? Record a numeric total below.

3 responses

For 2022 the practice is reporting quality measures via claims. The current count of CQMs within the system being reported by the practice is 0.

All measures detailed below, a total of 9 with all respective stratas, are configured

Total number of CQMs enabled per RWT session and screen share is 9

Clinical Quality Measures § 170.315(c)(1)—record and export: Which CQMs have you (or your practice) successfully reported to CMS for MIPS or other quality measures? i.e. Quality Measure ID 001 Diabetes: Hemoglobin A1c (HbA1c) Poor Control (>9%). List each measure below.

3 responses

While the practice is not using the CQMs within the CEHRT the following measure are shown as enabled for tracking: CMS2: Preventive Care and Screening: Screening for Depression and Follow-Up Plan, CMS50: Closing the Referral Loop: Receipt of Specialist Report, CMS68: Documentation of Current Medications in the Medical Record, CMS69: Preventive Care and Screening: Body Mass Index (BMI) Screening and Follow-Up Plan, CMS90: Functional Status Assessments for Congestive Heart Failure, CMS138: Preventive Care and Screening: Tobacco Use: Screening and Cessation Intervention, CMS156: Use of High-Risk Medications in the Elderly, CMS165: Controlling High Blood Pressure

Preventive Care and Screening: Screening for Depression and Follow-Up Plan, Closing the Referral Loop: Receipt of Specialist Report, Documentation of Current Medications in the Medical Record, Preventive Care and Screening: Body Mass Index (BMI) Screening and Follow-Up Plan, Functional Status Assessments for Congestive Heart Failure, Diabetes: Eye Exam, Preventive Care and Screening: Tobacco Use: Screening and Cessation Intervention, Use of High-Risk Medications in the Elderly, Controlling High Blood Pressure

Controlling High Blood Pressure, Use of High-Risk Medications in the Elderly, Preventive Care and Screening: Tobacco Use: Screening and Cessation Intervention, Diabetes: Eye Exam, Functional Status Assessments for Congestive Heart Failure, Preventive Care and Screening: Body Mass Index (BMI) Screening and Follow-Up Plan, Documentation of Current Medications in the Medical Record, Closing the Referral Loop: Receipt of Specialist Report, Preventive Care and Screening: Screening for Depression and Follow-Up Plan

Patient Engagement § 170.315(e)(1) View, download, and transmit to 3rd party: How many CCDAs have been created over the last 3 months? Record a numeric response below.

3 responses

Time frame 5/1/2022-8/1/2022 114 VDTs reported in output- Note report tracks VDT by unique patient count

Date range (5/1/2022 - 8/1/2022) Total number of VDTs is 3

Date range (5/1/2022 - 8/1/2022) Total number of VDTs is 5

Patient Engagement § 170.315(e)(1) View, download, and transmit to 3rd party: Can you generate and see a CCDAs for a real or test patient? Is the CCDAs able to be downloaded?

3 responses

Yes

Yes - generated and downloaded

Yes - generated and downloaded

Public Health § 170.315(f)(1) Transmission to immunization registries - How often is the practice or site using an immunization registry entries and submissions over the last 90 days? If you are not using the immunization registry document "N/A" and proceed to the next question.

3 responses

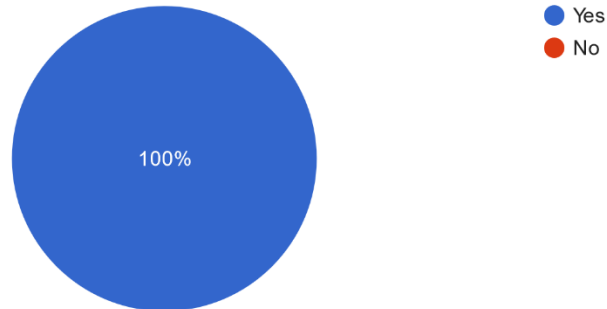

The practice does not provide or track immunizations due to the speciality/line of service, orthopedics.

N/A - Never the doctors does not administer immunizations

N/A

Public Health § 170.315(f)(1) Transmission to immunization registries - If not using the immunization registry, can you enter a immunization record and successfully generate an immunization registry file?

3 responses
